# THE TRUCK

The most complete food truck (mobile kitchen) in Europe is now for sale!

This "more than complete" driveable kitchen and service truck is equipped with all conceivable gadgets and technical quality devices in the field of kitchen and hygiene.

This truck was designed with great care and attention and was built by professionals who have earned their spurs in gastronomy. In view of the master is selected for a tight routing and high quality kitchen appliances.

All appliances and kitchen-items are "location and transport proof! The "culinary performance on location truck" is a fully equipped kitchen for driving that ensures the finishing touches! The mobile restaurant is self-sufficient with gas, water and electricity and can therefore be used anywhere.

The truck meets all contemporary alleged environmental and health and safety requirements.

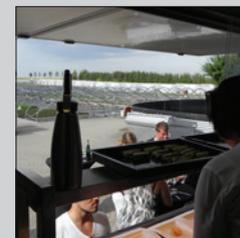

# TRUCK-FEATURES

Black pressed polyester sandwich panels filled with P.E.R. foam (thickness 25 mm.) and a water-resistant special adhesive layer (thermal resistant). Reinforced with welded aluminum frame and concealed cables.

There are 4 hatches for technical rooms and a 5th hatch to achieve unit space. With a small hatch to fill the tank and operate the switch. With a 2-part back door including an assembly of two wind hooks and a refrigerator-door with a goose neck. The ceiling contains 3 tiltable skylights (70X50 cm).

Chassis made of steel sections, which are galvanized in a hot-dip, which allows the chassis to maintenance free of rust. To achieve this, the chassis was shipped to Antwerp (Belgium).

The chassis is equipped with a fully automatic leveling system hydraulics (brand: E&P) with its own battery and a fully automatic charger. The chassis has 4 legs who can take up to 4.5 tons each.

# TECHNICAL ASPECTS

Trailer:	Brand: Barents trailers
Type:	BL-7500 asc
Length:	1000 cm. (externally measured)
Width:	250cm. (externally measured)
Height:	240cm. (lower part)
Gross Weight:	10000 kg.
Ash:	2 axes 4000 kg. (air suspension with high / low control)
Tires:	5 x215 / 75R 17.5 " (single assembly).
Brakes:	2 pipe Wabco air brake system including Wabco EBS / ALR-control.
Clutch:	2" kingpin on a height of approx 85 cm. (0unloaded)
Floor:	18mm. WBP.
Survey:	2500 kg. (On plate 7500 kg beneath the axes).

## Gas supply:

Between the chassis are two gas tanks with a compressed gas content of 200 liters plus LPG each. The gas system can be filled from the road surface from a recessed socket in the side wall. On the tank is a 6kg. 30 mbar regulator. In the kitchen is a content display system with LED readout.

There has been an outside connection that offers the possibility to be able to connect gas cylinders. The gas tanks are mounted underneath a heat blanket, that prevents the freezing of the tanks at extremely large decrease.

## Water supply:

Among the body, there are 3 water tanks, each with a volume of 150 ltr. The tanks are linked to each other which means there is a water tank capacity of 450 ltr. in total. The tanks can be filled tanks through a tap.

The water circuit is pressurized with a pump consisting of stainless steel components and is linked to a pressure vessel. In addition to the clean water tanks there are three tanks of 450 liters as well, with a drainage crane.

The clean water supply is equipped with 12 volt heating elements. Also, the tanks have a capacity display system with LED readout features which can be read in the kitchen area.

The water tanks are located in an isolated area containing 2 X 230 volt heaters that automatically start when the outside temperature is below 4°C (to prevent freezing).

# EQUIPMENT

All off the stainless steel-workbenches feature bars or lower doors. In the entire kitchen length, there's enough storage build of stainless steel.

The whole appliances is a busprofile skirting at the top, sealed with mold-free kit and the workbenches are finished with a stainless steel plinth.

## THE TRUCK

Salamander: On Gas. Brand: Modular  
Type: SG-GN 1/1 7 kw.

Combisteamer: 7 1/1 Gastronorm series, including a fully automatic cleaning system (self-suction from the technical area). Brand: Convotherm, 380 volts. Mount incl. 'Slide and Gastronorm 1/1 racks.

Refridgerator: 2.5m x 1.8m x 2.30m stainless steel. Gastronorm racks on wheels. incl. rods and stainless steel racks for beverage crates.

Freezer: 332 liters. Brand: Gram.  
Dimensions: 595 x 620 x 1780 including 6 gray wire baskets.

Water bath Grill: brand EQS. Hotline 1321501 380 volts. 2 elements 7.0 kw.

Recessed griddle: brand: Supra MKN.2 Hotline 1363402 380 volts. 10.8 kw. (Universal pan) including a drain point and arranged gastronorm receive tray in two parts.

Gas stove: 4 burner, brand: EQS. Hotline 1363402 18.2 kw. The entire direct cooking is coupled with overflow gutters. (Clip-skin).

Gas fryer: 1 pan, 15 liter, 15 kW. Brand: ATA. Type: K7gfg0515a.

Beer tap: 2 krane David system. 2 x 20 ltr. Kegs (Mobile).

Fully automatic coffee maker: brand: Vitesse Egro 53.

## Culinary performance on location

Ice machine: brand: Brema CB 246  
Production: 24 kg in 24 hours.

Dishwasher: brand: WD RHIMA 6 / E  
(by sliding model limited edition).

Microwave: brand: Panasonic 1000  
watt. 22 ltr. stainless steel.

Mounting bracket: stainless steel.

Extractor: 2 pcs. with one 1.52 kw  
motor. 7.1 A. With a roof duct and 6  
Grease traps. 4000 m<sup>3</sup> / h. and a  
solenoid valve.

Including fluorescent fixtures:  
Kemakeur. 2st. (Polycarbonate cover).

Heat Bridge: 2 halogen radiant heaters  
(dimmable light) equipped with two  
dimmers with housing (In 2 segments).

Kitchen Boiler: 10 liters, plinth model  
200w. Brand: Inventum Modesto  
hotfill.

Hand shower: TNS EU6D12 2-hole  
with check valve.

Walk Table: to conduct dishwasher  
baskets. Dimensions: 1150 x 750 x  
900 mm. With a sink and a folding box  
(plastic trash).

Spout Table: to guide profiles 50X50  
dishwasher baskets. incl. 2 sinks with  
corner seven and standpipes. B: 1600  
x D: 750 x H: 900 mm.

Issue table: Dimensions: 2860 x 750 x  
H: 700 mm.

Worktable: stainless steel.  
Dimensions: 2500 x 700 x 900mm.  
including tiltable cabinet (for trash,  
including plastic bin). And two  
sliding wardrobes with four sets of  
conductors.

Mixer tap: brand: Klarco (stainless  
steel).

Back: with direct cooking and chip  
shops to protect the polyester side  
wall of the trailer. Including a magnetic  
strip to hang the knives.

Unit: 380V / 220V Super Silence (60  
db). Brand: Perkins 85 KVA. Wilson  
built-in utility room and roof passage  
for diesel exhaust 250 liters.

## THE TRUCK

Iveco-tractor make: Iveco Type 40c 18T (3 seats)  
Including Blaupunkt CD player and navigation  
and digital map-taccograaf with fifth wheel and  
an air tank capacity of 3.5 liter. Engine (172 hp.)  
Finished with aluminum checker plate.

Diesel Exhaust hose: (for the use of  
the generator inside) stainless  
steel pipe with clamps and flexible  
hose (total length: 35 meters) It is  
also possible to lift the unit with a  
forklift from the trailer, and put on  
the ground (the connecting cables  
are left long enough to see) for any  
maintenance.

Fire prevention and fire escape  
routes: 2 pieces of CO 2 fire  
extinguishers and 1 fire blanket.

Tork Roll Holder: 2 holders ,1  
Plaster Dispenser, 1 soap holder, 1  
key rack.

Rear view camera.

50 meter flexible extension cable:  
400 volts. 64 amp plug and adapter  
to 16 amps. and

Cable and plug: 125 Amps per  
phase Spring 2 mtr. (Continuous  
connected)

Track and trace alarm system:  
brand: CA-1802 Athos with motion  
sensor and magnet closures on  
each hatch / door.

Car CD/radio: two speakers and  
antenna structure for transit.

Hose: 80 meter hose couplings with  
garden and water thief (Universal,  
fits on every tap)

Geka hose: 45 meters.

Brita water filter: 1200 70% purity for oven.

Brita water filter: 1200 100% purity for dishwasher.

Brita water filter: Primium XL. 70% for coffee.

Access Ladder: 2 steps aluminum bus profiles welded diamond plate coated.

Dry mat: at entrance aisle with a length of 3m.

Kingpin-lock.

## POWER DISTRIBUTION

Brand: Hager, with three circuit breakers 30mA.  
7 x 400volt, end groups 380Volt.  
12 x 230 volt terminal groups.

Lighting: TLD. 2x58 watts  
6x Wcd waterproof and 4 switches.

There is a power (32 amp) outlet outside under the goose neck and two 230-volt wall sockets outside under the gooseneck.

It's also possible to turn off the unit and switch the switch of "aggregate" to "AC" when you park the truck.

You can do this by plugging in a 230 volt outlet for the functioning of the refrigerator, freezer, lights, battery charger and water pump.

Ofcourse, you can also do this with a power cable.
